

MPC DRUG STORE COMPANY L.L.C

Header fields below mirror the format/content of Sample Invoice.pdf (same customer, same account) for realism when testing extraction/parsing. Item table data is real, read from Picture1.png / Picture2.png — see notes. Item descriptions below have been resolved from GTIN against product master data so extraction tests return an item name instead of "Item 1" / "Item 2".

Annex A — Item 1 Serial Numbers (LUMINA HYDRA EYE CONTOUR GEL 15ML)

GTIN 00300036120018, Batch 2120209, Exp 2026-06, Qty 12. Confidence: HIGH — read directly from full-resolution label photos, cross-checked across all 12 boxes.

Annex B — Item 2 Serial Numbers (SOLEIL PROTECT SUN CREAM SPF50+ 40ML)

GTIN 03664798023251, Batch 41016, Mfg 2024-06, Exp 2026-05, Qty 20. Confidence: LOW — source photo (Picture2.png) was shot at a steep angle; shared fields (GTIN/Batch/Mfg/Exp) repeat 20× and are trustworthy, but individual serial suffixes could not be reliably resolved digit-by-digit. Values below are PLACEHOLDERS (PH-ITEM2-01..20), not real reads — useful only to validate reconciliation logic, not as ground truth. Replace with real serials once available (sharper photo or a source list).
